

City Hall is pleased to offer external clients the use of its in-house furniture & AV equipment with no additional charge. Please note that the below list is not exhaustive.

Please note that some items are not available in large quantity. This means that if some equipment has been booked in a room it will not be available to other venue spaces. For example, if you are planning to have drinks on arrival on the Map area and then a drink & canapé reception in London's Living Room, you won't be able to use our poseur tables in both spaces.

It's important that you liaise with your City Hall Event planner to make sure the items you require are available and that you complete and return your function sheet as soon as possible.
